

eBN can integrate with virtually any carrier to establish a file feed for automated benefits enrollment. Below is a partial list of carriers that we have worked with to date. Our network continues to grow based on customer demand, so let us know if you would like to connect with a provider not listed below.

*Note: If the carrier is in **Red** text, please be aware that carrier has requirements on the group size. However, we recommend contacting that carrier to determine if they will make an exception or had any updates to their requirements.*

\*Lives = # of employees, Subscribed = # of employees & dependents
